*BROCHURE 2020.*

***BMW S 1000 RR.***

***MAKE LIFE A RIDE.***

# OVERVIEW.

The BMW RR is the ultimate superbike from BMW Motorrad. The unique race intelligence of DTC, DDC, Race ABS and Shift Assistant Pro meets the most impressive engine in its class. The liquid-cooled four-cylinder in-line engine with BMW ShiftCam delivers 152 kW (207 hp) at 13,500 rpm and impresses with breathtaking acceleration. The ShiftCam generates more torque in the lower speed range and simultaneously increases the maximum power by 8 hp. Thanks to Race ABS and Dynamic Traction Control (DTC), the RR brings this performance safely onto the roadway in any road condition. DTC adjusts the performance to the existing grip in milliseconds for maximum control and traction. Thanks to the e-throttle grip, the enormous forces can be regulated even more finely and optimally while Dynamic Damping Control (DDC) adjusts the electronic suspension to the riding situation within milliseconds. The system responds automatically to all riding manoeuvres and guarantees the best possible road contact at all times. The optional Pro riding modes make the RR completely suitable for racing tracks. In addition to the four standard riding modes, there are three completely individually configurable RACE Pro 1 – 3 modes and exclusive additional features such as Launch Control, Pitlane Limiter, Hill Start Control Pro and Dynamic Brake Control. This ultimate sportiness is unique - and also apparent at first glance.

MODEL COLOURS.

**BMW S 1000 RR with M package:**  
N2E in Light white/Racing blue metallic/Racing red/M Sport seat in Black

**BMW S 1000 RR:**  
N2W in Hockenheim silver metallic / Seat in Black

**BMW S 1000 RR:**  
NA5 in Racing Red / Seat in Black

STANDARD EQUIPMENT.

BMW S 1000 RR

Model code: 0E23

Engine/drive

- Water/oil-cooled, four-stroke in-line four-cylinder engine
- Four-valve technology with four hollow titanium inlet valves per cylinder, speed-resistant rocker arms and BMW ShiftCam technology
- Capacity: 999 cc
- Max. output: 152 kW (207 hp) at 13,500 rpm
- Max. torque: 113 Nm at 11,000 rpm
- Electronic injection (two injection nozzles per cylinder), digital engine management with integrated knock control, adjustable inlet manifold length
- Full E-Gas (ride by wire) electronic throttle control
- Stainless steel exhaust system with front silencer and compact rear silencer
- Two regulated three-way catalytic converters
- Shift assistant Pro (with blipping function)
- Six-speed synchromesh gearbox with spur gears
- Self-actuating multi-disc oil bath clutch with anti-hopping function
- Chain drive
- Compliant with Euro 4 emissions standard

Dimensions/weight

- Length: 2,073 mm
- Height (excluding mirrors)/(width including mirrors): 1,151 mm / 848 mm
- Wheelbase: 1,441 mm
- Unloaded weight, fully fuelled/road-ready (with M package): 197 kg / (193.5 kg)  
According to guideline VO (EU) 168/2013 with all equipment, with standard equipment, and filled to at least 90% of the usable tank capacity.
- Dry weight / (with M package): 175 kg / (173.3 kg)  
Unladen weight without equipment and without battery.
- Permitted total weight: 407 kg
- Max. load (with standard equipment): 210 kg
- Usable tank capacity (of which reserve): 16.5 l (approx. 4 l)

Performance / fuel consumption

- Max. speed: 299 km/h
- Fuel consumption per 100 km according to WMTC: 6.4 l
- CO<sub>2</sub> emissions in accordance with WMTC: 149 g/km
- Fuel type: Premium unleaded, 95 – 98 octane (RON) with knock control; max. output figure achieved with 98-octane (RON)

Chassis

- BMW Motorrad Race ABS (Partial Integral), can be switched off, with ABS Pro in the "Rain" and "Sport" riding modes
- Dynamic Traction Control (DTC) with 6-axis sensor cluster, heel angle sensors and DTC wheelie function
- Aluminium main frame in BMW "Flex Frame" architecture
- Fully adjustable upside-down telescopic fork (diameter: 45 mm) front, stanchion, black, with adjustable steering damper
- Rear suspension with Full Floater Pro kinematics
  - Aluminium beam swing arm
  - Fully adjustable central spring strut (spring preload, rebound and compression stage)
- Twin disc brake with four-piston radial callipers, front(diameter: 320 mm, 4.5 mm brake disc)
- Single disc brake at rear (diameter: 220 mm), single-piston floating calliper
- Cast aluminium wheels (tires 120/70 ZR 17 at front, 190/55 ZR 17 at rear)
- Side stands with ignition cut-out switch

Electrical system

- Full-LED headlights (low-beam and high-beam headlight) with lighted style element as side light
- 6.5-inch full-colour TFT display with BMW Motorrad Connectivity and on-board computer (Pure Riding screen displays and three core screens)<sup>1)</sup>: Multi-functional info display that can be controlled using the Multi-Controller, with 6.5" full-colour TFT display as well as media and telephone functions. High-resolution colour display with innovative presentation of vehicle-specific data and media information. Intuitively functional Multi-Controller for operating all available vehicle functions (depending on the selected optional equipment). With additional information and navigation via the BMW Motorrad Connected app.
- CAN bus with Single Wire System (SWS)
- Electronic immobilizer
- Drop sensor
- 450-W three-phase generator
- Diagnostic interface
- Hazard warning lights
- LED indicators with comfort function integrated in the front of the mirrors, LED rear light combined with turn indicator in one unit

Equipment

- Four riding modes ("Rain", "Sport", "Dynamic" and "Race"); BMW Motorrad Race ABS and DTC levels vary according to riding mode
- Transparent windscreen
- Two-piece seat (seat height: 824 mm; step length: 1,827 mm)
- Passenger seat cover in vehicle colour (for solo riding only; "Passenger package" option (code 413) available separately)
- One key system for all locks
- Brake lever and clutch lever adjustable
- Small storage compartment (with tools) under the passenger seat
- On-board literature

Special features

- Hill Start Control
- Reverse-shift pattern preparation
- Aluminium fuel tank
- Removable number-plate carrier

Colours

- NA5 paintwork in Racing red/Seat in Black/Frame and wheels in Black
- Paintwork in N2W Hockenheim silver metallic / Seat in Black / Wheels in Black / Rear frame in Copper metallic matt  
Metallic paintwork available at an extra charge.
- **BMW S 1000 RR with M package:**  
Paintwork in N2E Light white / Racing blue metallic / Racing red / M Sport seat in Black / Carbon wheels / Rear frame in Copper metallic matt  
Only available in combination with M package at an additional cost.

Illustrations may show optional equipment.

<sup>1)</sup> Helmet with BMW Motorrad communications system and smartphone required (available separately). Costs may be incurred through your mobile data plan. More information about your data and roaming tariffs is available through your mobile phone operator. Hands-free telephony (HFP), media playback (A2DP and AVRCP) and navigation (SPP/iAP) are supported by most current smartphones. The BMW Motorrad Connected app is available for devices with an up-to-date

iOS operating system or an up-to-date Android operating system. The type and range of navigation is dependent on the technical environment and the user's mobile device. Navigation is available via the BMW Motorrad Connected App as long as BMW Motorrad receives card data and navigation services from a third party provider for a minimum of 3 years after the initial registration. For further information go to [www.bmw-motorrad.com/connectivity](http://www.bmw-motorrad.com/connectivity).

OPTIONAL EQUIPMENT.

Optional M package at additional cost

- M package**
- Option code 18D
- Option code 228 "Race package" and option code 18D "M package" cannot be combined.  
Not available in conjunction with option code 276 "Design option wheels".
- Exclusive colour scheme: N2E Light white/Racing blue metallic/Racing red/Seat in Black
  - Pro riding modes  
(see detailed information)
  - M carbon wheels (tires 120/70 ZR17 front, 200/55 ZR17 rear)  
Brake discs at front 5.0 mm)
  - M sport seat (seat height: 824 mm; step length: 1,827 mm)  
M sport seat with more grip and harder foam.
  - M lightweight battery
  - M chassis kit (rear elevation and swing pivot)

Optional equipment packages (available at additional cost)

- Dynamic package**
- Option code 235
- DDC (Dynamic Damping Control) of the latest generation  
If optional DDC is fitted, the upside-down telescopic fork is gold-anodized.
  - Cruise control
  - Heated grips
- Race package**
- Option code 228
- Option code 228 "Race package" and option code 18D "M package" cannot be combined.  
Not available in conjunction with option code 276 "Design option wheels".
- Pro riding mode  
(see detailed information)
  - M forged wheels  
(Tires 120/70 ZR17 front, 200/55 ZR17 rear;  
brake discs at front 5.0 mm)  
Not available in conjunction with option code 276 "Design option wheels".
  - M lightweight battery
  - M chassis kit (rear elevation and swing pivot)
- Passenger package**
- Option code 413
- Passenger seat, black, instead of the passenger seat cover in vehicle colour
  - Passenger footrests

Optional equipment available at additional cost

- |  |                 |
|--|-----------------|
| • TPC (tire pressure control)                        | Option code 530 |
| • Design option wheels<br>(red trim on black wheels) | Option code 276 |
| • Anti-theft alarm system                            | Option code 603 |

Pro riding modes, M sport seat, M lightweight battery, M carbon wheels, M forged wheels, cruise control, heated grips, passenger seat with passenger footrests, Tire pressure control and anti-theft alarm can also be retrofitted as original BMW Motorrad accessories.

Detailed information for Pro riding modes

"Rain", "Road", "Dynamic" and "Race" riding modes are included in the standard equipment. The optional equipment Pro riding modes also includes the "Race Pro 1", "Race Pro 2" and "Race Pro 3" riding modes, which are configurable for Engine, Engine Brake, ABS, Dynamic Traction Control (DTC), DTC wheelie function (+/- shift) and if necessary also (if installed) for DDC. Launch Control and the configurable Pitlane Limiter are also part of Pro riding modes. In addition, the hill start assistant HSC Pro activates the brake automatically when stopping on uphill or downhill gradients and the Dynamic Brake Assist (DBC) supports emergency braking.

# BMW S 1000 RR WITH M OPTIONAL EQUIPMENT.

## BMW MOTORRAD M OPTIONAL EQUIPMENT FOR THE BEST LAP TIMES ON THE RR.

With BMW Motorrad M optional equipment we offer high-quality customization options ex works. Riding characteristics made for competition, optimized power-to-weight ratio, maximum performance, ergonomic adaptations for the racetrack and an attention-grabbing appearance. Many of these and other M optional equipment are also available as original BMW Motorrad accessories. Details about this are on the following pages.

## M OPTIONAL EQUIPMENT.

### 1 M Package

With the M Package, more emotion is added to the RR. The equipment features include the M lightweight battery, M carbon wheels that have already proven their worth on the race track, the M sport seat, the M Chassis Kit with rear elevation and swing pivot as well as the optional equipment Pro riding modes, which makes the RR unique with various assistance systems.

Not available in conjunction with option code 228 "Race package" or option code 276 "Design option wheels".

Option code 18D

### - M Carbon package

The high-quality Carbon package increases the Superbike look of the motorcycle. The package includes the front and rear wheel covers, chain guard and pinion cover as well as the upper side trim panels. The lightweight CFRP mounted parts, derived from racing, emphasize the elegant and sporty features with high-tech appeal.

For images, see page 15.

Option code 79A

### 2 M forged wheels

The M forged wheels are black anodized, noticeably lighter than the standard wheels and have already proven their worth on the race track. The high-quality forged wheels, with tire sizes 120/70 ZR17 at the front and 200/55 ZR17 at the rear, are equipped with 5 mm brake discs that are 0.5 mm thicker than the standard discs and deliver maximum braking performance.

Not available in conjunction with option code 276 "Design option wheels".

Option code 79F

### - M lightweight battery

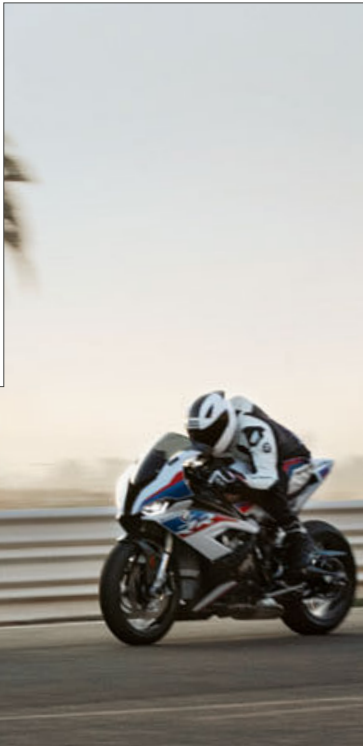

High battery power and low weight – the high-quality M lightweight battery featuring the latest lithium-ion technology weighs only 1,288 g, a full 2,000 g lighter than the standard battery. The perfect starting aid for ambitious Superbike riders who want to optimize every single gram on their motorcycle.

Option code 53B

You can find additional detailed images of M optional equipment on the following pages.

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.ca](http://bmw-motorrad.ca).

# ORIGINAL BMW MOTORRAD ACCESSORIES.

## M PERFORMANCE PARTS.\*

### 1 M carbon wheels

Less weight – more performance: the M carbon wheels give the RR maximum riding dynamics and handling advantages on the race track and the highway. Despite 2 x 0.5 mm thicker brake discs, the ultra-light carbon rims with a wheel size of 120/70 ZR 17 front and 200/55 ZR 17 rear are more than 1.7 kg lighter than the standard wheels, have significantly lower gyroscopic forces and make it noticeably easier and quicker to quick-turn the bike from one side to the other in all riding situations with less effort. In addition, they come into their own when chasing the all-important tenths of a second with much later braking points. These ultimate high-tech wheels make the whole bike easier and more playful to ride. Also available as optional equipment.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership. Bolt-on parts are required in connection with tire pressure control.

- M carbon wheels (front and rear)
- (+) Mounted parts

### - M forged wheels

The M forged wheels are black anodised and available in the tire sizes 120/70 ZR 17 at the front and 200/55 ZR 17 at the rear. With 5 mm brake discs, they offer maximum braking performance – on the race track and in road traffic. Also available as optional equipment (see image on page 10).

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership. Bolt-on parts are required in connection with tire pressure control.

- M forged wheels (front and rear)
- (+) Mounted parts

### - M lightweight battery

High battery power and low weight – the high-quality M lightweight battery featuring the latest lithium-ion technology weighs only 1,288 g, a full 2,000 g lighter than the standard battery. The perfect starting aid for ambitious Super-bike riders who want to invest in every single gram on their motorcycle. Also available as optional equipment.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- M lightweight battery
- (+) Mounted parts

## M PERFORMANCE PARTS.\*

### M sport seat

The M sport seat was specially designed for the race track and enables fatigue-free riding thanks to maximum feedback. With its particularly non-slip upper material and firm foam, it gives the rider optimum grip in the chase for the all-important tenths of a second. M sport seat (seat height: 824 mm) is also available as optional equipment.

- 2 • M low seat (seat height: 814 mm; step length: 1,809 mm)
- 3 • M sport seat (seat height: 824 mm; step length: 1,827 mm)
- 4 • M high seat (seat height: 849 mm; step length: 1,867 mm)

### 5 M axle protectors

The M axle protectors made of highly abrasion-resistant plastic reliably protect the fork and swinging arm of the front axle from scratches if the bike falls or tips over.

The installation manual is available for download from the BMW Motorrad website.

- M axle protectors (front and rear)

### M rider footrest system / M rider footrests

The M rider footrest system from BMW Motorrad ensures a sporty look and, thanks to many adjustment options, provides optimum ergonomics and sportiness. It is milled from a high-strength aluminium alloy, is particularly lightweight and offers optimum corrosion protection thanks to its three-colour anodisation. The optimum, individual adjustment of foot rests, brake lever, gearshift lever and shift travel provides a high level of comfort and safety. The knurling on the kick part of the brake lever ensures optimum grip and a high degree of sure-footedness even in wet conditions. In addition, the ball bearing of the gearshift lever and brake lever impresses with reduced play and lower operating effort compared to the standard levers.

- 6 • M rider footrest system
  - To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.
- • M rider footrests (left and right)
  - The installation manual is available for download from the BMW Motorrad website.

\* Original BMW Motorrad accessories are available from your BMW Motorrad dealer.

(+) = “and” this item must be ordered at the same time  
(o) = “or” this item can be used as an alternative

# ORIGINAL BMW MOTORRAD ACCESSORIES.

## M PERFORMANCE PARTS.\*

### - M passenger footrests

The M passenger footrests are milled from an anodised aluminium alloy and give the bike an even sportier appearance.

The installation manual is available for download from the BMW Motorrad website. Only suitable for passenger footrest bracket (see ergonomics and comfort).

- M passenger footrests (left and right)

### Folding M clutch lever / folding M handbrake lever

The CNC-milled M handbrake and clutch lever made of corrosion-resistant anodised aluminium emphasise the motorbike's sportiness in a particularly impressive manner.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- 1 • Folding M clutch lever
- 2 • Folding M handbrake lever

### 3 M remote brake lever adjuster

The M remote adjuster for the handbrake was developed for the race track and allows easy remote adjustment of the braking pressure while riding.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- M remote brake lever adjuster

### M clutch lever protector / M handbrake lever protector

Essential on the race track, the M clutch lever protector and M handbrake lever protector are also a clear statement of uncompromising sportiness on the road. The curved bows made of aluminium and plastic protect hand lever on the handlebars from being unintentionally actuated due to contact with another vehicle.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- 4 • M clutch lever protector
- 5 • M handbrake lever protector

### 6 M engine protector

The M engine protector with replaceable plastic pad protects the engine from direct grinding on the asphalt in extreme cornering situations.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- M engine protector (left and right)

## M PERFORMANCE PARTS.\*

### M carbon bolt-on parts

M carbon bolt-on parts are a breath of high performance: sophisticated, sporty, exclusive and robust at the same time, each part a masterpiece in its own right. And if perfection's what you're after, you've hit the jackpot. Bolt-on parts made of the ultimate lightweight material carbon combine a sophisticated appearance with technical know-how and impressively underline the uncompromising sportiness of the RR. The following M Carbon bolt-on parts are also available as optional equipment: front and rear wheel cover, pinion cover, top left and right fairing side panels and chain guard.

M carbon top fairing side panel and M carbon tank trim: To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership. M carbon wheel cover, M carbon pinion cover, M Carbon airbox cover and M carbon chain guard: The installation manual is available for download from the BMW Motorrad website. M carbon rear wheel cover only available in combination with M carbon chain guard.

- 7 • M carbon front mudguard  
(+) Mounted parts
- 8 • M carbon rear mudguard  
(+) Mounted parts
- 9 • M carbon pinion cover  
(+) Mounted parts
- 10 • M carbon fairing side panel, upper (left and right)  
(+) Mounted parts
- 11 • M carbon tank cover (left and right)  
(+) Mounted parts
- 12 • M carbon airbox cover
- 13 • M carbon chain guard  
(+) Mounted parts

### - M chain tensioner

The M chain tensioner milled from a high-strength aluminium alloy and anodised twice gives the bike a particularly sporty look.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- M chain tensioner

\* Original BMW Motorrad accessories are available from your BMW Motorrad dealer.

(+) = "and" this item must be ordered at the same time  
(o) = "or" this item can be used as an alternative

For more detailed information, contact your BMW Motorrad dealership or go online at [bmw-motorrad.ca](http://bmw-motorrad.ca).

# ORIGINAL BMW MOTORRAD ACCESSORIES.

## M PERFORMANCE PARTS.\*

**1 M cover kit**

Simply remove the mirrors and licence plate holders and replace them with the covers of the M cover kit. Then off to the race track.

The installation manual is available for download from the BMW Motorrad website. Only for racetrack use.

- M cover kit

**- M fork clamp for stub handlebars**

The M fork clamp milled from a high-strength aluminium alloy emphasises the installation of the stub handlebar with a particularly sporty look.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- M fork clamp for stub handlebars (left and right)

**2 M oil filler neck**

The M oil filler neck is milled from black anodised aluminium is adjustable and highlights the sporty design with its look.

- M oil filler neck

## STORAGE.

**3 Saddlebag, 21 litre**

The saddlebags from BMW Motorrad fit perfectly into the sporty design of the bike. They can carry quite a bit of luggage in their waterproof inner bag. If required, the black bags including spacers can be removed quickly and easily thanks to the Quick-Lock fasteners.

The installation manual is available for download from the BMW Motorrad website. Only available in conjunction with passenger seat, not in conjunction with seat hump cover. Not available in conjunction with sports silencers. Only suitable for passenger footrest bracket (see ergonomics and comfort).

- Saddlebags, 21 l each (left and right)

## STORAGE.\*

**4 Tank bag, 10 l**

The 10-litre tank bag from BMW Motorrad with belt attachment integrates perfectly into the bike's racing design.

- Tank bag, 10 l

**5 Tank bag, 1.5 l**

The 1.5-litre tank bag can be attached to the tank cover with Tenax quick-release fasteners and integrates perfectly into the bike's racing design.

- Tank bag, 1.5 l

**6 Bag for passenger seat, 10 l**

The 10-litre bag for the passenger seat is perfectly adapted to the racing design of the bike and can be mounted without special brackets.

Only available in conjunction with passenger seat, not available in conjunction with seat hump cover.

- Bag for passenger seat, 10 l

**7 Rear bag, 20 l**

The 20-litre rear bag from BMW Motorrad is perfectly adapted to the racing design of the bike and can be mounted without special brackets.

Only available in conjunction with passenger seat, not available in conjunction with seat hump cover.

- Rear bag, 20 l

**8 Bag for smartphone**

Smartphones can be safely stowed in the padded, waterproof smartphone pocket and charged or used as a navigation device while riding.

- Bag for smartphone

**9 Folding backpack, 12 l**

The lightweight folding backpack is a helpful companion when spontaneous storage space is required on the move. It can be stowed under the seat.

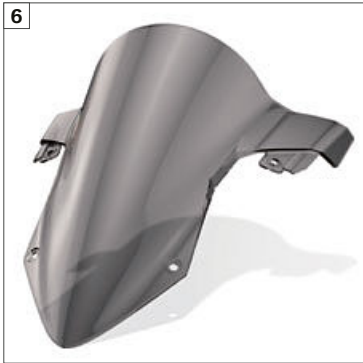

- Folding backpack, 12 l

\* Original BMW Motorrad accessories are available from your BMW Motorrad dealer. For information on speed and load limitations, please refer to the instruction booklet.

## DESIGN.\*

### – Sports silencer

A top-class feature for top quality sound. the high-quality slip-on sports silencer made of titanium with a carbon end cap guarantees a throaty sound and a sporty appearance. In addition, the sports silencer developed with Akrapovič is weight-optimised compared to the standard silencer.

Availability scheduled for 3rd quarter of 2019.  
The installation manual is available for download from the BMW Motorrad website.

- Sports silencer
- (+) Mounted parts

### Light white/Racing red seat hump cover

The seat hump cover in vehicle colour emphasises the sporty appeal and perfectly complements the Superbike appearance of the bike.

The installation manual is available for download from the BMW Motorrad website.  
Not available in conjunction with saddlebags, rear bag or passenger seat bag.

- 1 • Light white seat hump cover
- 2 • Racing red seat hump cover

## ERGONOMICS AND COMFORT.

### 3 Passenger seat

The passenger seat in Black offers pleasant seating comfort even on longer distances.  
Also available as optional equipment option code 413 "Passenger package".

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- Passenger seat
- (+) Passenger footrests (left and right)
- (o) M passenger footrests (left and right)
- (+) Mounted parts

### 4 Tinted windshield

The tinted windshield emphasises the sporty look of the motorcycle.  
The scratch-resistant coating ensures long-term unimpeded visibility.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- Tinted windshield

## ERGONOMICS AND COMFORT.\*

### High windscreen / high windscreen, tinted

The dome-shaped high windscreen from BMW Motorrad increases wind protection and top speed in equal measure.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- 5 • High windscreen
- 6 • High windshield, tinted

### – Heated handlebar grips retrofit kit

No more cold hands: This is ensured by the electric heating grips with multi-stage control. This increases comfort and provides more safety, because with warm hands and more feeling in the fingers, the vehicle can simply be controlled better. The heated grip is conveniently operated via a combination switch on the handlebars. Also available as optional equipment.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.  
Available for vehicles with or without cruise control.

- Heated handlebar grips retrofit kit (left and right)
- (+) Mounted parts

### – Pro riding modes retrofit kit

Pro riding modes with three additional RACE Pro modes and various assistance systems open up the whole world of race track performance to the rider. Also available as optional equipment. For detailed information, see page 9.

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- Pro riding modes retrofit kit

### – Cruise control retrofit kit

The electronic cruise control can be activated from 30 km/h.  
Also available as optional equipment.

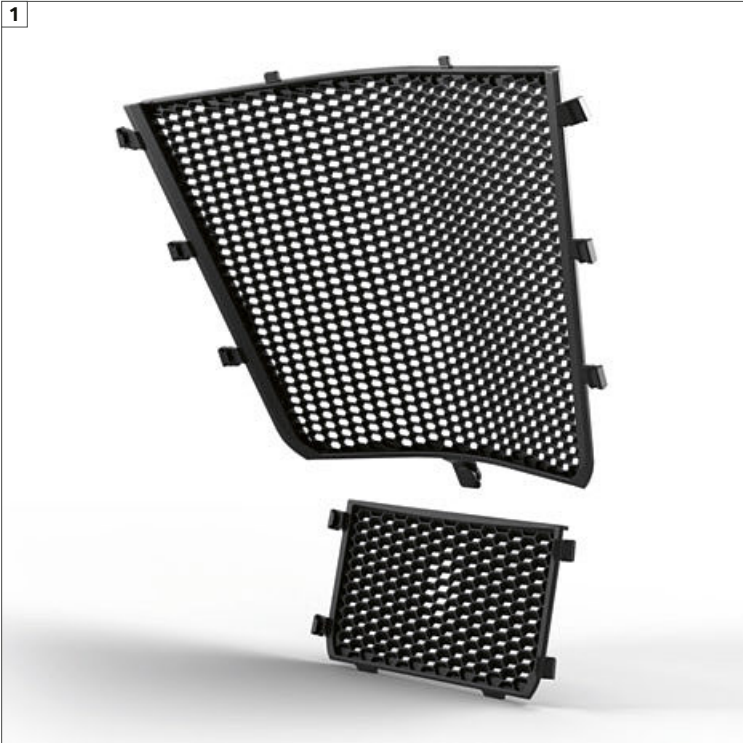

To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.

- Cruise control retrofit set

\* Original BMW Motorrad accessories are available from your BMW Motorrad dealer.

(+) = "and" this item must be ordered at the same time  
(o) = "or" this item can be used as an alternative

# ORIGINAL BMW MOTORRAD ACCESSORIES.

## SAFETY.\*

- 1 Radiator grille**  
The BMW Motorrad radiator grille protects the radiator on the race track from tyre abrasion and damage due to stone chips.  
The installation manual is available for download from the BMW Motorrad website.
- Radiator grille
- Anti-theft alarm system retrofit set**  
If the anti-theft alarm system is moved or struck violently, the system responds with a clearly audible signal and a hazard warning indicator lamp.  
Also available as optional equipment.  
To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.  
Bolt-on parts are required if option code 6AC "Intelligent emergency call" is not installed.
- Anti-theft alarm system retrofit kit
- (+) Mounted parts

- 2 Brake disc lock with anti-theft alarm system**  
Double protection against theft: The brake disc lock with anti-theft alarm is the ideal theft deterrent when you're out with your bike. The lock made of hardened steel provides reliable protection against manipulation and is easy to store thanks to its compact dimensions. The anti-theft alarm detects the smallest movements and violent shocks and responds by emitting an acoustic alarm.
- Brake disc lock with anti-theft alarm system

## SAFETY.\*

- TPC retrofit kit**  
Tire Pressure Control (TPC) with all functions can be retrofitted by installing the control unit. It provides reliable information about the current tire pressure and warns the rider at an early stage in case of pressure loss. The corresponding notifications and instructions are provided by the on-board computer in the cockpit. Also available as optional equipment.  
To be fitted and/or enabled in a specialist workshop, ideally at your BMW Motorrad dealership.
- TPC retrofit kit
- 3 Protective film for 6.5-inch TFT display**  
The protective film made of tempered glass protects the 6.5-inch TFT display from dirt and damage.
- Protective layer for 6.5-inch TFT display
- First-aid kit**  
The extensive large first-aid kit from BMW Motorrad complies with the DIN standard for first-aid cases and should not be missing from any motorcycle. The compact small first-aid kit from BMW Motorrad fits into any motorcycle and includes basic equipment for treating minor injuries.
- First-aid kit, large
  - First-aid kit, small

RIDER EQUIPMENT.

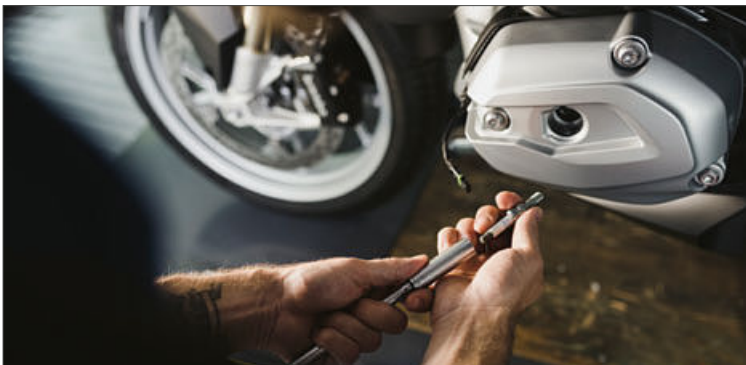

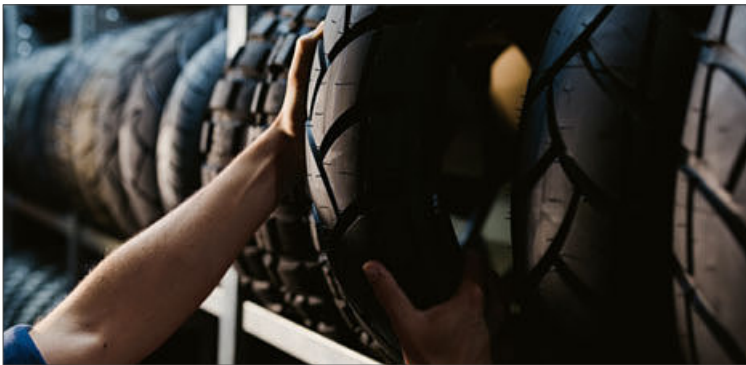

- 1 ProRace suit /ProRace Made-to-Measure suit** (not shown)  
With the single-piece ProRace suit for men, bikers demonstrate their sporty ambitions. The close-fitting tailored single-piece suit made of 1.3 mm highly abrasion-resistant nappa leather, despite its relatively low weight, offers a complete safety package with protectors in the shoulder, back, elbow, hip and knee areas. Knee sliders and sliders for the lower arms and shoulders also offer protection even at extreme lean angles. A hump optimises the aerodynamics, stretch inserts guarantee freedom of movement. At the same time, the white perforated leather surfaces – in combination with a 3D spacer fabric in the back area – provide first class ventilation. If riders would like to design the suit to match their own individual requirements, there is the option to do so with the ProRace Made-To-Measure with customisation choices, including the even more comfortable and more hard-wearing kangaroo leather option and different colour and styling variants, including name or nickname (for a surcharge).
- 2 ProRace gloves**  
ProRace gloves are ideally suitable for sporty bikers who value extreme freedom of movement, enhanced safety and a direct grip experience when riding fast. They are partially protected by hardened foam and feature palms made of kangaroo leather, and upper hands made of goat leather with stretch zones.
- 3 ProRace boots**  
Waterproof, breathable ProRace boots for men not only impress with their Race look, but also with many practical details. Among other features, they offer side and heel guards, a gearshift lever protector, and soft suede leather on the inside of the bootleg for the best possible contact with the motorcycle. The insole is removable and washable.

Find out about these items and other rider equipment at your BMW Motorrad dealer or at [bmw-motorrad.ca](http://bmw-motorrad.ca)

# SERVICES FROM BMW MOTORRAD.

## BMW Motorrad Service

The extensive service network of BMW Motorrad ensures your bike gets the care it deserves. There are over 22 BMW service centres in Canada alone, and if you're off on your travels, you'll find them in over 100 countries around the world. Their outstanding quality of service is based on reliability and speed whenever spare parts are needed, competent advice for riders, as well as excellent workshop performance. This has earned them exceptional ratings from many leading bike magazines.

## BMW Motorrad Roadside Assistance

We pride ourselves on the quality of aftersales care we provide. Like BMW Motorrad roadside assistance: round-the-clock breakdown assistance. Call 1-800-267-8269 If you have a breakdown in Canada or the USA, our experts will do everything they can to get you back on the road. If they can't fix the problem immediately, they'll get you to your destination by other means.

Ask your BMW Motorrad dealer for more information or visit [bmw-motorrad.ca](http://bmw-motorrad.ca)

## BMW Financial Services

Freedom on two wheels. BMW Financial Services helps you to get the most out of your riding experience. Financial services are very similar to configuring your own personal bike: an individual solution is always best. And that is particularly true when it comes to your mobility.

## Finance

BMW Financial Services offers convenient finance solutions that are tailored to your individual needs.

## BMW Basic Finance

Choose a term (12 to 84 months) with a downpayment and instalments to suit your budget. Get your personal quote from your BMW Motorrad dealer.
